CURRENT PROJECT

Collegium Medicum University of Rzeszów

New Educational Building • ul. Cicha, Rzeszów • KPO-Funded

BETONOX Construction S.A. signed a contract on 22 October 2025 with the University of Rzeszów for the construction of a new teaching building for the Collegium Medicum. The facility — approximately 4 000 m² net floor area — will house pre-clinical educational infrastructure for medical students.

Financed under the National Recovery and Resilience Plan (KPO), the project will enable the university to increase intake limits for medical programmes and further strengthen its position as a leading medical education centre in south-eastern Poland.
